SPONSORS CONFIRMED THROUGH 7/30/18

5 short years ago, we got together and said “what if.” **What if** no child were afraid to hug her mother, because she didn’t have a wig. **What if** no breast cancer patient would have her utilities turned off because she couldn’t work during chemo. **What if** no woman in treatment would have to leave her family hungry at the dinner table. **What if** everyone had access to free breast cancer screening. **What if** fewer children lost their mothers, because cancer was detected early, rather than too late.

For five years, we have come together as a community and changed the face of breast cancer for underserved women across Long Island. **Join us in celebrating our incredible 5 year journey.**
